DETAILED ACTION

The preliminary amendment has been received and entered. Claims 16, 19, 20, 25, and 26 are currently pending.

Election/Restrictions

This application contains claims directed to the following patentably distinct species: one, or two or more medicinal ingredients selected from the group consisting of Glycyrrhiza glabra extract, Coix lachryma-jobi extract, blackcurrant fruit extract, Inula britannica extract, cranberry fruit extract, Mucuna birdwoodiana extract, cactus extract, Momordica grosvenorii extract, and astaxanthin and its derivatives. The species are independent or distinct because each species is directed to a different medicinal ingredient. An artisan of ordinary skill would not have a reasonable expectation that these ingredients would function in an equivalent manner.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 16-, 19, 20, 25, and 26 generic. Applicant must elect a specific medicinal ingredient or a specific combination of medicinal ingredients from those listed above. An example of a proper election would be to elect Glycyrrhiza glabra as the medicinal ingredient.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1655

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
